

KSU Unzip My Chip

(Romeo) is a 2009 American Quarter Horse gelding. He was purchased as a weanling by Lauren Schiller with the intentions to be shown Western

Pleasure in the AQHA circuit.

He has had MANY ups and downs as far as injuries/health is concerned, including two surgeries on his left hind leg due to an injury as a yearling. He has

a plate and five screws fusing the joint, but you would never know by his beautiful, sweeping movement. After showing Western Pleasure successfully as

a two and three year old and a year lay-up due to the second surgery and paralysis, he was introduced to Hunters to improve his hind end movement. He took

to it well and that has become his new career. He still struggles with his striding and line work, but improves with each go. He is a very well behaved

horse who aims to please. He has a couple of year end top 6 placings in KHJA as well as AQHA points in Western Pleasure and Hunter Under Saddle.

Romeo added eventing to his repertoire in 2017, starting his career with a first place at a USEA Sanctioned Horse Trial in Beginner Novice. He led the

division for the entire horse trials, ending on his dressage score. He continued with his winning ways in 2018 by qualifying for the American Eventing

Championships in Colorado, where he successfully placed in the top 12 of a large division. He will continue his all around showing, including eventing

and taking some students to a few shows.
